Academic Year: 2024/2025

INTRODUCTION

EcoCollect Cameroon is a tech-driven waste management platform designed to address Cameroon's growing waste crisis by connecting households, businesses, and recyclers through a mobile/web app. This report outlines a **1-year strategic roadmap** to launch and scale the business, covering **market entry, operations, funding, and impact metrics**.

Phase 1: Foundation (Months 1-3)

Objectives:

- Validate the business model
- Develop MVP (Minimum Viable Product)
- Secure initial partnerships

Key Actions:

Task	Responsible Party	Timeline
Market research (surveys, waste audits)	Founder + Interns	Month 1
Prototype app development (basic scheduling/incentives)	Tech Team	Months 1-2
Pilot testing in 2 neighborhoods (Douala/Yaoundé)	Operations Team	Month 3
Partner with 5 local recyclers	Business Dev	Month 3

Success Metrics:

- 500+ app downloads
- 200+ kg of waste collected in pilot
- 3 signed MOUs with recyclers

Phase 2: Launch & Growth (Months 4-6)

Objectives:

- Scale operations in urban areas
- Refine tech based on feedback

- Secure seed funding

Key Actions:

Task	Responsible Party	Timeline
Launch full app (iOS/Android)	Tech Team	Month 4
Onboard 50+ waste collectors	Operations	Month 5
Apply for grants (e.g., African Development Bank)	Founder	Month 6
Host 10 community workshops	Marketing Team	Months 4-6

Success Metrics:

- 5,000+ active users
- 10+ tons of waste recycled
- \$20K in seed funding secured

Phase 3: Expansion (Months 7-12)

Objectives:

- Expand to 3 new cities (Bamenda, Bafoussam, Limbe)
- Monetize via B2B partnerships
- Achieve financial sustainability

Key Actions:

Task	Responsible Party	Timeline
Integrate payment system (Mobile Money)	Tech Team	Month 7
Partner with 20+ businesses (hotels, schools)	Sales Team	Months 8-9
Launch "Recycle & Earn" loyalty program	Marketing	Month 10
Apply for environmental certifications	Founder	Month 12

Success Metrics:

- 20,000+ users
- 50+ tons of waste processed
- 30% revenue from B2B contracts

Financial Projections (Year 1)

Metric	Target
Revenue Streams	Recyclables sales (60%), B2B fees (30%), Grants (10%)
Operating Costs	App maintenance, logistics, salaries
Break-even Point	Month 10
Projected Revenue	\$150,000

Risk Mitigation

Risk	Solution
Low user adoption	Aggressive community outreach + incentives
Funding shortfalls	Diversify grants/crowdfunding
Logistics delays	Partner with existing waste collectors (HYSACAM)

CONCLUSION

EcoCollect Cameroon's 1-year roadmap balances **innovation, sustainability, and profitability**. By leveraging technology and community engagement, the business will:

1. Reduce urban waste pollution
2. Create jobs for waste pickers
3. Generate revenue from circular economy

Next Steps: Secure pilot funding, finalize MVP, and launch Phase 1.
